## **CAITHNESS WINDFARM INFORMATION FORUM**

### **AIMS & OBJECTIVES**

- To promote the aims, objectives and views of the Forum to the Public;
- to encourage the creation of a structured, sustainable and multi-technology renewable energy and energy conservation policy for Scotland and in particular the Highlands;
- to liaise with key stake holders, Local and National Government in order to encourage an evaluation of wind power stations in terms of numbers, size and location of developments;
- to engage with relevant parties about siting and scaling of wind power stations and associated structures across Caithness and Sutherland;
- to ensure that local issues are considered and taken account of prior to consideration by the Scottish Government with regard to S36 planning applications;
- to raise Public awareness of windfarm issues in Caithness and Sutherland, including data on numbers, locations and details of developments at every stage we are aware of;
- to raise funds required for the achievement of the above objectives by any lawful means;
- to employ persons on such terms as may be necessary;
- any other reasonable aims and objectives as deemed necessary by the Forum.
